INTRODUCTION

As mentioned in article 3 of the Law of National Education System, it said that national education is functioning to develop capability and to shape the character and civilization of dignified nation to educate the nation’s life which develop the potential of learners to be a man who have faith and devotion to God Almighty, as well as the next generation who have healthy, knowledgeable, capable, creative, independent, democratic and responsible (Sisdiknas 2003).

Implementation of good education management of course needs to be supported by good facilities and infrastructure, both in madrasah and school. Therefore, the management of education which is organized in the Bording School program, it is forum for the development of religious education for students should receive good attention from the madrasah / schools and the government. The existence of Boarding School education is expected to be more develop and the implementation of educational program activities more control, so that the quality of education of students can be accountable and they are able to face challenges education in the future. In addition, boarding schools should provide teachers who can play a role to replace and represent their parents at home. According to Loanov (1897) in Nurkamid, that an act shown by his teacher to students in his learning process will affect the whole personality of the students (Nurkamid, 2006).

The existence of Boarding School in the school environment needs to be supervised. The management requires very serious attention both from the school / madrasah and government. Boarding School located in the school / madrasah can provide expectation for students to improve the passion of learning, discipline and compliance towards themselves. The existence of Boarding School in the school environment can help students in improving student achievement and student's personality well.

Another benefit is students can learn independently. In the school environment, students can interact with fellow, even interact with teachers all the times. A good example can be seen directly in their environment without delay. Thus, students' cognition, affective, and psychomotor education can be better trained and optimal.

METHODS

The approach used in this study is a qualitative approach, with qualitative descriptive method, which concerns to data collection, to describe the conditions and situations in Madrasah Aliyah Negeri 2 Serang. Considerations or reasons of research
using this method, it is expected to express the characteristics and describe and analyze the management of Islamic education. As Latunussa (1998: 55) says: Descriptive method is a research method used to answer questions about the nature of the symptoms or questions about what it is, or describe what it is. The purpose of this method is to describe the condition as it is or to describe the phenomenon objectively as possible.

To support this method, the data collection techniques used are: (1) the interview is a question-answer process in verbal research in which two or more people meet face-to-face to listen informations (Narbuko, 2010: 83). (2) observation is a means of collecting data by observing and systematically recording the symptoms investigated (Narbuko, 2010: 70).

For research conducted in schools studied should be held direct observation by looking at every school activity and school facilities to know the management of existing strategies in the school. (3), the method of documentation is the retrieval of data based on available documentation sources (Hadi, 1989: 136). This documentation may consist of supporting archives, report books, and school letters for information relating to research and (4) field studies with objective data reflecting field data.

4. Problems and Supporting Factors in Management of Boarding School of MAN 2 Serang

The problem is: 1) There are still many parents / students who have not wholeheartedly for boarding. This condition affects the activities of madrasah programs, 2) There are some santri who have not adhered to the rules of the boarding, for example: they like to learn Outside by leaving the dormitory program, spending of break time at boarding; 3) Boarding room for ladies is lack, because more ladies who enthusiasts. Supporting factors; 1) Funding source from Madrasah 'DIPA' for building maintenance, 2) Funding source from parents participation. (CL A1.22.7.2017).

The problem: Boarding school of MAN 2 Serang in terms of curriculum, curriculum in boarding is currently cannot maximum due to collide with the problem of time and guardian parent who also concurrently as a teacher. It still not balanced to the number of santri. Then another problem in terms of disciplinary application of students is not maximum, because there are still many students who had never been stay at boarding, so they difficult to adjust to the new environment. they come from protective family who always take care of their children, so children become spoiled, so party of boarding difficulty to instill maturity level on students. Supporting factors: facilities and infrastructure is almost adequate. Then from the board and guardian is bachelor, other facilities, such as canteens, sport area, places to study and boarding is available and conditions are adequate (CL.B1.29.7.2017).
The problem is: a) not all students in Boarding have a tendency to stay in boarding; b) Not all parents of students have the same paradigm as institution about the programs; c) The supporting of the madrasah committee and all elements of the education observer is indispensable for the same aspiration of IBS; d) Inadequate availability of facilities, such as water, electricity, residential of guardian, and a narrow location that becomes a problem for students. Supporting factors: All involved such as the committee, students' guardian, teachers and employees and appointed board are the most important factors for managing boarding school of MAN 2 Serang (CL.A2.5.8.2017).

The problem is: a) Limited availability of water to meet the personal needs of students; b) The lack of discipline of the santri due to the unavailability of the santri dining room; c) Limitations of room / boarding room availability make the students' discomfort in resting and learning. Especially for ladies.

Supporting factor; The existence of committee funds that can be used as a basis for the development of boarding school management of MAN 2 Serang, both from the provision of facilities and from the welfare of the foster parent and manager. (CL.B2.12.8.2017).

The problem is: a) Not all of Students of MAN 2 Serang stay at boarding, only grade X students who are all required for 1 year. So it is sometimes difficult to distinguish boarding and non boarding students. When returning from school, there are opportunities for students to go home without permission; b) Insufficient facilities to support the students as well as space for santri movement. Supporting factors; All part in boarding especially the santri guardian and also the representatives in the madrasah and the role of the homeroom teacher work together in guiding the students (CL.A3.19.8.2017).

DISCUSSION

MAN 2 Serang is a public education institution that is characterized by Islam or people say Senior High School Plus is generally high school but more religious content, so that in learning takes more time or can be said to require time addition to better understand about religious lesson. The school tries to accommodate all by ostracizing students with hope, if there is time to provide an additional time of religious instruction. Implementation of Boarding School in MAN 2 Serang has goals include: a) The formation of Personality learners who have good character and have the skills to live independently. b) To establish a balanced student identity in the facing environment development; c) Formation of santri characters in accordance with the vision of the madrasah mission; d) Facilitating santri who live far from the madrasah so they can be mentored in a sustainable manner; e) Amplifier Variable achievement.

Planning in management of Boarding School of MAN 2 Serang, beginning with the program of the Ministry of Religious Affairs at that time by Mr. Surya Darma Ali appealed that all MAN must have boarding / Boarding School. For the cooperation of all academic community of MAN 2 Serang and support of parents / guardians of students can be implemented. In the management of Boarding School of course the Madrasah work together with madrasah graduates who have background 'pesantren' or college graduates who are in the State of Middle East / Saudi Arabia.

Then the curriculum modifies the learning activities to be carried out in the boarding school. Then the facilities and infrastructure complete to make students comfort living in Boarding. Learning activities are done after formal learning. In the morning, afternoon, evening students learning in boarding. The lessons in Boarding will be given that have more religious issues as support or additional student skills. So it is expected students of MAN 2 Serang mixed when with the community can apply the knowledge that has been obtained when in Boarding School.

Planning in boarding management are: a) Integrated planning between boarding and schools / madrasah b) Formulated through 'Rakernas' through the preparation of 4 years program plan, c) The Committee submits positive feedback and support in the management of Islamic boarding school (IBS) through deliberation, all matters related to the provision of facilities and infrastructure, supporters and activities, d) Planning is also adapted to the needs in accordance with the character of santri who live in Boarding, e)
Perform monthly evaluation in the implementation of all duties and caregivers, f)
Planning of each member of the board is set in the work plan agreed upon in deliberation.

Management of Boarding School in MAN 2 Serang headed by the Chairman of Boarding School, as the person in charge of the activities during the Boarding School, assisted by the vice chairman, additional board and foster care. Boarding School of MAN 2 Serang is an integrated educational institution between general education and pesantren education as supporting of teaching learning activities of Madrasah. It aims to implement a more advanced and comprehensive education, holistic, so the students can reach world science (general) and religion.
